Editio

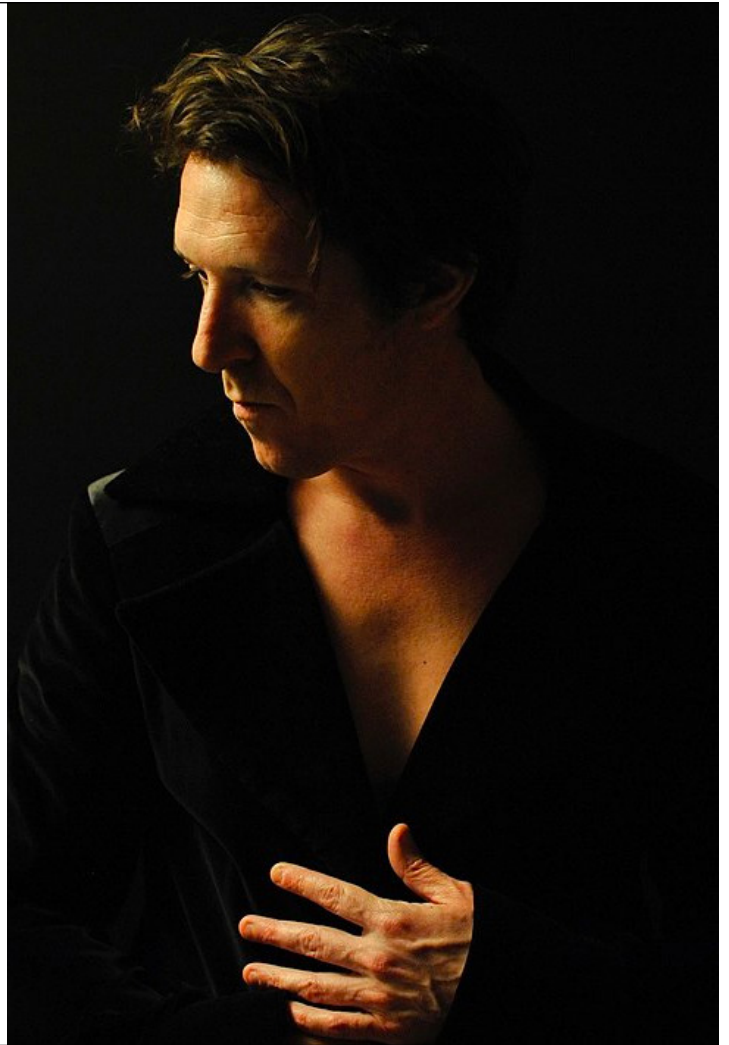

Ronald Martinez's view of the body is an eloquent testimony to the powerful effect that Italian Luminism left on pictorial traditions that associate chiaroscuro with transcendence !

His artwork, which reveals equally a work of conscientious research and one of subtle photographic intuition, gracefully illustrates the immense potential offered to whoever, imbued almost despite himself by the light so rich in nuance developed by Caravaggio, Titian, Veronese or Cagnacci, can deploy his photographic instinct to cut out in profane realism delicate and sensual scenes where dark and light contrasts sculpt a graceful nudity with divine accents.

Biography

Ronald Martinez is an author and photographer born on February 28, 1978, in Annecy, France.

**Ronald
Martinez**

For twenty years he has confronted light and its infinite nuances, all while developing his photographer's eye. It is this constant and rigorous attention that he brings in order to create Divine Nudes, a series of inspired pieces where the artist has literally succeeded in painting light !

Ronald possesses a heightened sensitivity to feminine beauty and has sought to research feminine nudes all throughout his career. His works were put on the art market in 2013 for Artefiera Off and were an immediate success.

From 2013 to 2015, the Parisian and Italian public discovered his first series, entitled Divine Nudes. The exhibition catalogue for Divine Nudes can be found in the libraries of the Metropolitan Museum of Art in New York and at the Maison Européenne de la Photographie. !

In 2015, the artist signed the cover of Ibrahim Maalouf's album Kalthoum with Divine Nude N13. !
